NUMBER 260

L. & N. ISSUES ORDERS FOR 2 AND A HALF CENT RATE

Montgomery, Ala., Aug. 11.—Instructions have been received by S. T. Suratt, ticket agent at the Dothan railway station, to put in a 2 1/2 cent rate at midnight Monday on the Mobile and Montgomery, the Alabama and Florida, and the Pennsylvania divisions of the Louisville and Nashville railroad within the state unless further orders are received by that time from headquarters at Louisville.

It is practically certain that the Louisville and Nashville company, with the order of the Atlanta railroad commission, will establish the 2 1/2 cent rate Tuesday on all its lines in Alabama, thereby giving the traveling public a reduction of 10-1/2 per cent in fares. Whether the attorneys for the Louisville and Nashville would make a final and spirited effort during Monday to have the three federal judges hold it to the reduced rate pending an appeal to the United States supreme court, could not be learned from district court of the Louisville and Nashville, a raid in Montgomery took them off the circuit well without information.

Will Put Up Fight

It is understood that the Central of Georgia Railway and the Western Railway of Alabama will offer battle to the recent orders of the railroad commission requiring it to establish a 2 1/2 cent pass rate in Alabama effective Aug. 17. It learned sometime ago that two lines will file bills in the federal court here in a few days seeking an enforcement of a commission's order on the general reclassification. The bills will declare that the commission's orders that according to the commission's records in the state they do not apply to the two lines. The two lines, however, probably know that federal judges probably in a Grand Jury and Federal, the entire line of guess who can't hear and disposed of the Louisville and Nashville rate case satisfactorily to the state. When the hearing will be held is not known but it will take place prior to Aug. 21.

Judge S. B. Wood of Abbeville was in Dothan Monday this morning on his way home from Montgomery.

J. M. Dabbs of Tallahassee Fla. was looking after business interests in the city Monday night.

REP. CLAYTON MAY BE AP- POINTED BY GOV. O'NEAL

DEMOCRATS CAUCUS ON CURRENCY BILL

SAYS FRIENDS OF THE GOVERNOR—ONE OF THE FIRST TO ENDORSE O'NEAL FOR GOVERNOR AND CONSIDERED AN ADEQUATE MAN.

Would Leave Vacancy Which Would Likely Put H. G. Farmer in the Running.

Walter Harper, special correspondent for the Birmingham News, wrote an article that would indicate that Governor O'Neal is favorable to Congressman Clayton and think he will be appointed to fill the vacancy caused by the death of Senator Johnston.

At one o'clock yesterday afternoon the Governor announced that he had not reached a decision as to what step he would take. He has been in consultation with friends and advisors at his hotel.

Friends of Mr. Clayton point out a number of reasons why Governor O'Neal might be considered as favorable to Representative Clayton. In the first place he is considered as well qualified for the duties of the office. He would be acceptable to the Bonus, it is claimed, on account of his high position and work in the lower house. Mr. Clayton is a warm friend of the Governor. The executive looks upon the representative from the Second District as one of the strongest legislators in the House. He is said to be close to the governor in political sentiment.

Representative Henry, of Texas, Neely of Kansas, and others feel that texture of the struggle.

Mrs. P. J. Land, son of Mr. Andrew, the agent here, left to the city.

Mrs. H. L. Blackshear of Hale were arrived in the city today.

Mrs. Madie Granger left yesterday for Mobile where she will be the guest of the Misses Bigell for several days.

REVENGE'S CHASE, and by Assemblyman Robert Taylor of the Progressives. Both Human and Schuyler had led a two hour fight for postponement of action on the resolution to adopt the Crowley committee report.

The fight in the fight over the adoption of the report was between the two factions, forty five minutes. The upper half, so dark long, to take the preference to a vote in the crowded assembly chamber. For two hours there a strong that crowded every niche and cranny of the big chamber, stood patiently and silently over one another waiting for the vote.

Then again Clayton is considered a better man to defeat Hobson than most any other man that might be selected. Those interested in the defeat of Hobson would like to see Clayton given the advantage of the Governor's appointment.

Thus, it can be seen that the Second District will likely have some position if Governor O'Neal does what it looks like he will do.

J. T. Brock, Miss Eva Heard, and Miss Cora Boreland, have returned from the Eastern markets where they have been buying goods for the Heard-Brock Dry Goods Co. Mrs. Foster and Miss Nettie Strickland have not returned yet, and are now in Calexico. The new store for this firm isn't quite finished yet, but the drays are unloading goods in the store now, which will be opened up as soon as the interior work on the building is completed.

If Gilson of Troy, was among the visitors to the city last night.

J. Wilson of Bloomburg was in the city last night and this morning on business.

Pity the end seat man never takes the chair.

What will the paragraphs write about when the old shirt goes out of style?

We saw it coming. One candid date has overworked his talker and had to retire.

"Hend silence Comer," says a headline. Didn't heard that he killed him.

Ligg will be a hero if he comes back from Mexico in his own accord, and doesn't ride in the big gago car.

If we are to have any senatorial politics it is high time the public knew it. We haven't time down here to fool around much to poll this, but we will take a little time.

Nearly all of the automobile accidents come from driving the car at too high rate of speed. The 13th is nearly going to Montgomery the other day were hitting it up pretty lively when a tire burst and turned the car into a ditch. One never knows when something like this will happen, and the result can only be guessed at.

GOOD FIGHTING ON.

When a South Alabama editor gets sick he may go to Panama City or stay at home and be treated. At times one may get off to Hot Springs if he has rheumatism, but a Birmingham editor, J. W. Barrett, of the Age-Herald, goes to Carlsbad, Austria.

An editor does like nearly everybody else.

The country doctor advises his patients to come to Dothan for treatment of a special character. The Dothan doctors are apt to send a patient to Montgomery or Atlanta, or New Orleans, and people from New Orleans, Atlanta and Montgomery, are in turn, sent to New York by their physicians. And the New York doctors send their patients to Mayo Bros., of Rochester, Minn., or to Europe.

All of which is like the search for wealth. The thing you want is still better in another town.

INVESTIGATE FREE PASSES

Senator Luke Lee, of Tennessee, wants the Interstate Commerce Commission to investigate and see how many passes are issued by the Louisville and Nashville railroad and other railroads owned and controlled by it. Senator Lee wants facts and figures and it will be interesting when complete.

He wants the number of free annual passes, the number of free trip passes, the number of every kind of free passes issued by each of said railroads each year since January 1, 1911, to members of legislative bodies and other public officials or at the request of members of legislative bodies and other public officials the total mileage traveled upon free passes issued under each of the above classifications and the amount in money the free passes issued under each of the above-mentioned

The Best Beverage under the Sun—

classifications would equal at the regular rates for such service of each of the above named railroads.

Benton, Tex., should request that

the names of thosereckless free passes be arrested. The Journal did

not know until recently that certain

state officials in Alabama were rid-

ing on passes. It thought the anti-

pass law prohibited this but it

now seems that a special act was passed

for the benefit of some officials. The

next legislature will be called upon

to repeal this act. —Montgomery Journal

Yes, there are many people who think the day of fire passes is over but not so. There are men in Dothan who can secure passes for their friends to Washington and New York, almost any time.

BRYAN'S CRITICS

By Haywood

Both of our exemplars of patriotism and sagacity in statecraft prefer to be very much disturbed because

the action of William J. Bryan is going on the lecture platform at times when there is nothing pending in the Department of State that cannot be as well managed by subordinates. There is nothing now in

this course of conduct. Many of our public servants have engaged in the practice of law in devoting themselves to literary work, or ap-

peared in the lecture field while drawing salaries as officers of state or nation.

The vulgar are prone to look on the product of statecraft as worth turned out to the ton, or the cent. It is to that element that Senator Wilson on his fellow's appeal to that demagogic statesman on the American Society of State. If it is a sample of prudence or rather tax policy in our politics. But it is more than that. It is an uncharitable tribute to the Democratic administration. Unable to find in it great things to successfully assail they try to pick out little things to condemn.

The man who smiles and justifies is sure to succeed in the long run. —Lively Headlight.

Time for Evelyn to "Cash In." Evelyn Nease, New York, filed her petition to liquidate her assets being scheduled at 3 p. m. She has already been the cause of two men becoming bankrupt and ruined and we guess it is about time she was sinking in Mahoneys.

Notes a New Office

The Dothan Times state that Editor C. G. French of the Citizens' Allo Democratic is being recruited to run for state editor. Want Effective Anti-Gambling Law

It is to be hoped that the next legislature will create an effective anti-gambling law. The way the law may stand is less important than getting from the hands of another. It is almost impossible to inflict the system long enough to make it stand. I want to make it open that the former sort of a health care provider at first and when it is not in the public interest to do so, then turn them over to themselves. —Dothan Dispatch

Conserving Wild Life

Is there any possibility that the Florida will someday become a factor in helping the best of the men in the sixth annual report of the American Legion Society reveal that there are 900 of the sturdy Republicans in this country and that the number is steadily increasing. Evidently there is not much doing that the one that holds the plate will be seen only in stupid form in ignorance and become like the dodo and the front rank citizens of the past. This does not hold true if even a fly chance exists monthly until in after years they would add appreciably to the meat supply. —Markland is finding that it doesn't pay to slaughter food animals or fowl bird, insects. The profits of disappearance of small game in some sections of the country and the narrow escape of the blood from the feather have been important objectives. Conserving bird and animal life is like turning money on high interest. The returns are sure to be very great.—Saturnus News
